

"I was immersed in a community of peer-learners facing the same challenges. It was an opportunity to grapple with practical administrative issues particular to LC schools. Networking and sharing of ideas were invaluable!"

-Jeff DeVaney, *Principal*
Lincoln Elementary
Brainerd, MN

"As a central office administrator, I learned how I could support the building principal as he/she worked with the literacy coordinator and staff to make the Literacy Collaborative an exciting and vibrant model for transforming classroom literacy instruction. It has been wonderful for our children... we are growing great readers and writers!"

-Deborah Grove, Ph. D, *Title I Supervisor*
Williamsport Area School District
Williamsport, PA

"Attending the Academy was a wonderful hands-on way to see the LC framework in action. I witnessed first hand how 'word walls' can be a guiding force in building students' reading independence. Watching teachers do guided reading groups while students 'monitored their reading/writing' was very powerful."

-Berta Johnson, *Principal*
Kae Avenue Elementary
Whitehall, OH

Successful change projects always include elements of both pressure & support.

Pressure without support leads to resistance and alienation.

Support without pressure leads to drift or waste of resources.

LITERACY LEADER ACADEMY

Literacy Leader Academy is a series of professional development sessions designed to empower individuals, such as administrators, superintendents, and curriculum leaders, to become a Literacy Leader in his or her building or district.

Each session will explain how you can support best literacy practice in your school by understanding the theory that supports it, what it should look like in a classroom, what resources are necessary, and how to support teachers in their professional development.

Each session will also address ways to build a healthy culture in your school/district so that positive change can be embraced. This academy is highly recommended for administrators in schools affiliated with Literacy Collaborative or are considering joining the Literacy Collaborative network.

Quotes from attendees—

“The modeling of practice impacted my learning and gave me the confidence to go back to my district and engage in the practices and have deeper conversations with teachers.”

“Hands on practice with the methods (of balanced literacy) kept me engaged and made methods attainable, relatable.”

“I especially appreciated the modeling sessions and conversations with other building leaders.”
